02MA105	Study on Methodologies of Inductive Knowledge Formation	1	2.0	1 - 3	Fall/AB	Fri5, 6		Shin-ichi Nakayama	A variety of methodologies and case studies for knowledge formation are discussed. Fields of case studies are in natural science, especially protein and chemical informations, and in Kansei science.	要望があれば英語で授業
02MA106	Studies for Knowledge Formation	1	2.0	1 - 3					宋代以降の宗教・民俗・社会についての実際の論文について、その学説が引用されている資料からどのように導き出され、その際にどのような理論が前提とされているかなどを分析し、この分野における新たな知識の形成を考究する。	Not open in 2019. Lectures are conducted in Japanese.
02MA108	Special Information and Resources II (Literature)	1	2.0	1 - 3	Fall/AB	Wed7, 8		Toyoaki Watanuki	江戸時代以前に成立した文学資料を対象として、調査研究し、その時期の文化状況について論及する。	Lectures are conducted in Japanese.
02MA109	Special Information and Resources III (Society)	1	2.0	1 - 3	Spr/AB	Thu3, 4		Yoshihiro Goto	In this class, we discuss the periodization of media history. The lecturer of this class has researched the theory of Masakazu NAKAI, the first deputy chief librarian of National Diet Library, from the viewpoint of media studies. I will lecture, in the first half period of this class, reconsideration of the periodization of media history, referring to 'the Logic of Committee' (1936), the masterpiece of NAKAI which treated the periodization of media and logic. In this work, NAKAI said, "economic and social system seeks main media of the age, and main media corresponds to main communication mode and main logic of the age." In the last half period of this class, I will compare the text of NAKAI with the texts of other authors, for example, Hannah ARENDT, Walter ONG, Marshall McLuhan, Walter BENJAMIN, Michel FOUCAULT, and so on. By this comparison, we will find out the originality and the pioneer spirit of NAKAI. This class will be mainly held by lecture but partly held by practicum. In the part of practicum of this class, members of this class must report minutely about the works written by NAKAI, ARENDT, ONG, McLuhan, BENJAMIN or FOUCAULT.	図書館情報メディア専攻英語プログラム学生からの要望があれば英語で授業 Identical to 02DMM07.
02MA110	Research of Educational and Cultural Policy	1	2.0	1 - 3	Spr/AB	Sat2, 3		Chieko Mizoue	アメリカやカナダといった北米地域の多民族国家において、情報メディアを通じて民族的アイデンティティがいかに形成されてきたかについて考察する。なかでも教育文化分野に焦点をあて、国民統合の視点から政策形成の過程を歴史的に論じつつ、多文化的状況についても検討する。	要望があれば英語で授業
02MA113	Study on Interactive Information Retrieval	1	2.0	1 - 3	Spr/AB	Mon1, 2		Hideo Joho	We study interaction between users and information retrieval systems from cognitive, affective, and behavioural aspects. In particular, we focus on behavioural analyses of information searching, design of search interfaces, implementations and evaluation of interactive information retrieval systems.	要望があれば英語で授業 Instructor's office
02MA114	Study on Life Informatics	1	2.0	1 - 3	Fall/AB	Wed1, 2		Tetsuya Maeshiro	Treats the information side of the life, such as genetic information, brain activity and relationship network. Together with related life phenomena, methods of Informatics that are essential in recent Life Science research are also treated.	Lectures are conducted in Japanese.

O2MA116	Study of Information and Society	1	2.0	1 - 3						Not open in 2019. Lectures are conducted in Japanese.
O2MA117	Studies of Media Industry and Communication	1	2.0	1 - 3						Not open in 2019. Lectures are conducted in Japanese.
O2MA119	Study on Information Law	1	2.0	1 - 3					Through the prism of comparative legal studies, we will consider how our legal system can contribute to today's highly advanced, networked society. While AI robots are becoming more like humans every day, and IoT devices are soon to be embedded into human bodies, the lines between humans and robots might become blurred. We explore new legal frontiers like these and others and discuss the related issues.	Not open in 2019. Lectures are conducted in Japanese. Instructor's office
O2MA120	Study on Knowledge and Information Infrastructure	1	2.0	1 - 3	SprAB	Thu5, 6		Saori Donkai	This course covers knowledge and information infrastructure. Knowledge and information infrastructure is a social foundation that circulation that circulation, sharing, utilization and accumulation of knowledge and information generate new value. We will focus on the players, the roles and the relationship.	Lectures are conducted in Japanese. Instructor's office
O2MA121	Archival Study	1	2.0	1 - 3	SprAB	Mon7, 8		Tetsuya Shirai	日本の地域アーカイブズを事例として、その調査、収集、整理、保存、閲覧提供、幅広い活用をめぐる諸問題について研究する。対象は、公文書や民間所在資料(古文書)のほか、近年の重要な課題である被災資料・災害資料も積極的に扱う。	Lectures are conducted in Japanese. Instructor's office
O2MA122	Study on Philosophy of Knowledge	1	2.0	1 - 3	FallIAB	Tue5, 6		Mikiko Yokoyama	In order to examine the concept of knowledge, this lecture deals with contemporary problems in connection with the concept of knowledge from a philosophical point of view. I will first review the history of epistemology (theory of knowledge). Then, I will examine internalism and externalism.	要望があれば英語で授業
O2MA123	Study on Copyright Law	1	2.0	1 - 3	FallIAB	Tue5, 6		Maiko Murai	This course deals with the copyright law. At the end of the course, participants are expected to understand key challenges of recent copyright law, and discuss the problem about copyright.	Lectures are conducted in Japanese.
O2MA124	映像メディア研究	1	2.0	1 - 3	FallIAB	Fri7, 8		Yasuaki Tsuji	インターネットの普及・高速化にともない、従来の映画、テレビに加えてインターネット動画という映像メディアも台頭してきている。本授業では、各映像メディアによって多様なコンテンツが社会に伝播し、新たな規範や文化が醸成されつつある現状を踏まえて、映像コンテンツの側から情報を整理し体系化するとともに、各メディアにおける映像コンテンツの特徴、社会的影響を分析し、新たなコンテンツやサービスの開発を視野に入れて論じる。	
O2MA306	Study of Information Analysis	1	2.0	1 - 3					With respect to the classification related to the content of the information media, analytical techniques, theoretical background and significance, and the expressive methods of the results will be discussed. More specifically, history and comparison of various classification system is described.	Not open in 2019. Lectures are conducted in Japanese. Instructor's office
O2MA307	Study of Information Organization	1	2.0	1 - 3					情報メディアの組織化および情報メディアに含まれる情報の組織化について、対象の分析・構造化とその記述・表現手法、さらには記述・表現結果の共有と統合などについて論ずる。	Not open in 2019. 要望があれば英語で授業 Instructor's office
O2MA310	Study on Exploitation of Database Resources	1	2.0	1 - 3					データベース資源の解析に利用しうる各種の方法、および解析における問題点について、事例に基づいて考察する。データベース資源の解析結果に基づき、知識を発見し活用するための実践的な方法について論じる。	Not open in 2019. Lectures are conducted in Japanese.

02MA311	Study of Library Governance	1	2.0	1 - 3	SprAB	Fri7, 8		Hiroshi Itsumura	図書館におけるガバナンスを論じる。基礎的なガバナンスの理解をもとに今日の社会及び情報環境の変容に対して、図書館がどのようなガバナンスのもとにその対応を果たすべきかを検討する。具体的な事例および図書館に関わるデータをもとにあるべきガバナンスの在り方を研究する。	要望があれば英語で授業
02MA312	Study on School media center	1	2.0	1 - 3	FallAB	Thu3, 4		Yuji Hirakue	In this study, we treat core research papers on management of school media centers regarding curriculum development of library use education or professional education and training for school librarians and so on. We discuss and consider important matters or problems based on them.	Lectures are conducted in Japanese.
02MA313	Study on Information and Media Services	1	2.0	1 - 3	SprAB	Tue5, 6		Yuko Yoshida	Cultural diversity is an important aspect of contemporary libraries. Public libraries need to offer appropriate services based on the cultural characteristics of users in light of race, ethnicity, gender, sexual orientation and age. This course focuses on library services conducted in Scandinavian Countries. Firstly, this course examines particular cases in Denmark, Sweden, Norway, the Netherlands and Finland. Secondly, the course considers challenges and problems of library and information services to diverse library users examining the conceptual framework and theories of the issues with special reference to the relationship of library institutions to their contemporary social, cultural and political environments.	Lectures are conducted in Japanese.
02MA314	Planning on Information Community	1	2.0	1 - 3	SprAB	Tue3, 4	7A204	Atsushi Toshimori	Planning and evaluation for services/facilities that provides information in the community are presented and discussed in this class. The topics of this course are: behavioral choice modelling and others.	要望があれば英語で授業
02MA315	Advanced Reserach of Data Science	1	2.0	1 - 3					図書館情報現象を記述するための手法のうち、より高度なものを扱う。	Not open in 2019. 要望があれば英語で授業
02MA316	Study on Media Effects	1	2.0	1 - 3	SprAB	Wed7, 8		Kanae Suzuki	The course will explain studies on media effects, and methods for examining media environment and media effects.	Lectures are conducted in Japanese.
02MA317	Investigations on Knowledge Resources	1	2.0	1 - 3	SprAB	Thu5, 6		Keita Tsuji	How libraries are supporting students' learning activity will be introduced.	要望があれば英語で授業
02MA318	Study on Informetrics	1	2.0	1 - 3	FallAB	Tue3, 4		Fuyuki Yoshikane	In this course, we discuss theories and methods of informetrics from two viewpoints: (1) investigation of patterns of information production, circulation, cumulation, and use; (2) practical application of informetric measures. We also discuss recent research findings concerning informetrics, scientometrics, and webometrics.	Lectures are conducted in Japanese.
02MA502	Study of Media Physics	1	2.0	1 - 3	FallAB	Tue5, 6		Makoto Matsumoto	Recently, large capacity of magnetic recording medium, solid state device and optical storage medium are being developed and the importance of the equipment of media in an information system is increasing. In this lecture, the physical property of the media is elucidated using theoretical physics. Specifically, relation between the knowledge obtained by first-principle calculation and the various physical properties is explained.	要望があれば英語で授業
02MA503	Study of Information Access Systems	1	2.0	1 - 3	SprAB	Thu1, 2		Tetsuji Satoh	ネットワーク化される多様な情報・コンテンツに自在にアクセスするための検索・流通・個人化技術の高度化とシステム化手法について深掘する。具体的な課題を設定して、関連する要素技術、システム構築技術等を論ずる。	Lectures are conducted in Japanese.

02MA506	Numerical Processing	1	2.0	1 - 3					<p>The computation of PageRank and SVM requires some large numerical computation methods based on the Mathematical procedure. This course targets Numerical Processing algorithms used in many research fields and discusses the applications to High Performance Computing environments based on their theoretical backgrounds. Students are required to understand relevant knowledge about fair comparison of implemented algorithms and to evaluate them by using comparing points defined by themselves.</p> <p>This lecture covers topics on algorithms in the Numerical Linear Algebra such as Direct method for the solution of the system of Linear Equations, Iterative method for the solution of the system of Linear Equations, Eigenvalue Analysis, and analysis of Singular Value Decomposition, and so on. The computing environment includes serial processing, shared memory Parallel Processing with OpenMP, distributed memory Parallel Processing with MPI, and Co-processor such as GPU, and so on.</p>	Not open in 2019. Lectures are conducted in Japanese.
02MA508	Computer Algebra Systems	1	2.0	1 - 3	Fall/AB	Tue5, 6		Shuichi Moritsugu	We study the future development of mathematical software as a fundamental component of information media systems. To expand the present computer algebra systems, the development of new efficient algorithms will be discussed.	Lectures are conducted in Japanese.
02MA509	Studies of Systems for Information Sharing and Communication	1	2.0	1 - 3	Fall/AB	Tue5, 6		Tetsuo Sakaguchi	情報のデジタル的取得、加工、蓄積、伝達、提示のための各種メディア技術とその統合方式について論ずる。ネットワーク環境に親和性のあるデジタルメディア技術、各種メディアの統合と役割分担について考究する。	要望があれば英語で授業
02MA510	Knowledge and Information Space	1	2.0	1 - 3	Spr/AB	Thu1, 2		Norihiko Uda	In this course, we research on knowledge and information space that includes human knowledge and recorded knowledge.	要望があれば英語で授業
02MA511	Structured Document Processing Technology	1	2.0	1 - 3	Spr/AB	Thu3, 4		Nobutaka Suzuki	This course discusses formal descriptions and its expressiveness of schema definition languages, query languages, and transformation languages of structured documents such as XML. This course also discusses the computational complexity of major problems such as XSLT typechecking problem and XPath satisfiability problem.	要望があれば英語で授業
02MA515	Exploratory Search Systems	1	2.0	1 - 3	Fall/AB	Mon5, 6		Masao Takaku	This course gives lectures on the state of the art of researches in the field of exploratory search systems.	要望があれば英語で授業 Instructor's office
02MA516	Study on Data Analysis	1	2.0	1 - 3	Spr/AB	Tue3, 4		Taro Teduka	Data analysis algorithms using machine learning and statistics will be developed and evaluated through application to real data. Theoretical analysis will be conducted if necessary.	要望があれば英語で授業
02MA517	Computational Linguistics	1	2.0	1 - 3	Spr/AB	Tue3, 4		Yohei Seki	In this class, we will learn statistical natural language processing technology. We will study language model as a basis, then topic model and distributed representation as a new NLP technologies. Finally, we will study NLP applications framework such as machine translation or sentiment analysis, etc. based on new NLP technologies.	要望があれば英語で授業
02MA702	Cognitive Information Processing	1	2.0	1 - 3	Fall/AB	Thu3, 4		Yuzuru Hiraga	Lecture and discussion on studies on Human Cognitive Activities (e.g. reasoning, language, perception, emotion) will be given, focused mainly on computational approaches and how cognitive capabilities can be realized on computers. Typical topics are computational modeling of structural cognition including music cognition, language understanding and logical inference.	要望があれば英語で授業

O2MA705	Technologies for Contents Sharing Infrastructure	1	2.0	1 - 3					Discussion on digital libraries, digital archives in the networked information environment, mainly from the viewpoint of metadata.	Not open in 2019. 要望があれば英語で授業
O2MA706	Network Communication Fundamentals	1	2.0	1 - 3					In this lecture, we explore significant technical paradigm shift that occurred in the past 20 years in information communication network, and analyze their impact to the network society. Key words are the Internet, mobile, ubiquitous and cloud. The process of changes are explored from various literatures and case studies.	Not open in 2019. 要望があれば英語で授業
O2MA707	Advanced Design of Digital Content	1	2.0	1 - 3					This course deals with the concept and meaning of the content. And also deals with production techniques of digital content.	Not open in 2019. Lectures are conducted in Japanese.
O2MA711	Study of Intelligent Systems	1	2.0	1 - 3	SprAB	Mon3, 4		Masahiko Mikawa	知能ロボットをはじめとする知能システムに関する要素技術、システム構築のための理論、応用例等、最新動向を交えながら解説・議論する。	Lectures are conducted in Japanese.
O2MA712	Information Design Expression Research	1	2.0	1 - 3	FallAB	Tue3, 4		Sangtae Kim	In this lecture, to learn the historical flow of computer graphics. And to understand the basic principles of CG technology in light of the position. Consider the expression technique and utilization by taking advantage of it. In addition, to understand the latest technology trends, learn about the use of CG in the art and design field with ideas deployment of a new representation method in the graphics design field.	Lectures are conducted in Japanese.
O2MA716	Researches on Visual Media Application Basis	1	2.0	1 - 3						Not open in 2019. Lectures are conducted in Japanese.
O2MA717	Technical Study for Information Expression System	1	2.0	1 - 3						Not open in 2019. Lectures are conducted in Japanese.
O2MA718	Cultural Research on Printing Media Expression	1	2.0	1 - 3						Not open in 2019. Lectures are conducted in Japanese.
O2MA719	Technologies for Content Management Infrastructure	1	2.0	1 - 3	SprAB	Wed6, 7		Atsuyuki Morishima		要望があれば英語で授業 Instructor's office
O2MA720	Study of Communication and Collaboration Support System	1	2.0	1 - 3	FallAB	Mon3, 4		Tomoo Inoue	Human communication have been expanding its environment, which includes the use of various electronic devices and computer networks. The environment affects communication and resulting collaborative activity themselves. This course provides viewpoint and discussion on this communication and collaboration environment through latest research papers of the HCI and CSCW fields.	要望があれば英語で授業 Instructor's office
O2MA721	Study on Digital Nature	1	2.0	1 - 3	SprAB	Fri4, 5		Yoichi Ochiai	本講義では、課題創造のための事例調査、関連研究をまとめるためのサーベイ、そして計算機隣接分野でのケーススタディを中心とした問題解決を主眼に議論する。具体的には、受講者にとって身近な問題を発見し、プレゼンテーションを行いながらプロトタイプを論じる。	Instructor's office
O2MA722	Research in Cognitive Psychology	1	2.0	1 - 3	FallAB	Fri3, 4		Hiroshi Morita	In this course you will learn the basics and recent studies in cognitive psychology by reading journal articles, and acquire the skill of taking up a question from everyday life, making a cognitive psychological hypothesis, and conducting research using empirical methods.	at the professor's office In Japanese Lectures are conducted in Japanese.
